

NMIT apprenticeships programme

NMIT offers several managed apprenticeship programmes delivered in a variety of ways to suit every learner.

These programmes are available for learners that have become a recently employed apprentice.

How does it work?

NMIT students will study part time and attend weekly evening classes and may be eligible for block courses which are scheduled throughout the year.

We work alongside you and your apprentice throughout their qualification, ensuring you are fully up-to-date on progress and the apprentice is supported to succeed. The apprentice will be allocated a programme coordinator and will have the opportunity to select from a variety of options to allow them to focus on their area of interest.

NMIT apprenticeship managed programmes

- [Automotive Engineering - Level 3](#)
- [Automotive Electrical Engineering - Level 4](#)
- [Light Automotive Engineering - Level 4](#)
- [Heavy Automotive Engineering \(Road Transport\) - Level 4](#)
- [Carpentry - Level 4](#)
- [Mechanical Engineering \(Trade\) - Level 4](#)
- [Engineering Fabrication \(Trade\) - Level 4](#)

Next steps

If an NMIT managed apprenticeship sounds like an opportunity for your current employees or you would like to partner with NMIT on an apprenticeship programme please contact Jenna Baxter.
